

HUS130HDSIL

130L Anti-Condensation Glass Door Bar Fridge in Silver

Specifications

GTIN	5060535961486
Designed to Suit	Inside
Temperature Control	Mechanical
Function	Fridge
Food Safe	No
Colour	Sliver
Gross Total Capacity (Litres)	130lt
Temperature Range (°C) Min	2
Temperature Range (°C) Max	10
Ambient Temperature Level (°C)	16 to 38
Energy Consumption	120kWh/Year
Refrigerant	R600a
Shelves	4 coated metal Wire
Feet	2 (front adjustable)
Defrost	
Product Dimensions (mm)	845x555x570
Cut Out Dimensions (mm)	865x595x620
Required Ventilation (mm)	50mm at the back 20mm sides
Gross Weight	55kg
Country of Origin	China
Warranty	3 Years

Double Glazed Glass, Anti-Condensation Door

Both features work together to minimize energy loss and improve the overall efficiency of the cooling system, leading to lower operating costs. Double glazing provides superior insulation, while anti-condensation technology ensures that the glass remains clear and free of condensation.

Chrome Coated Wire Racks

The chrome coating on these racks provides a combination of durability, aesthetics, and functionality.

Internal LED Light With On/Off Switch

LED light enhances visibility inside the fridge.

Fully Adjustable Shelves

Features fully adjustable chrome-coated wire racks that offer a modern aesthetic while maximizing storage efficiency.

Designed For Indoor Use

Designed to operate indoors rather than in outdoor or unprotected areas.

3 Year Warranty

Three-year product warranty covering labour and parts ensures peace of mind
