

SPECIFICATIONS

MODEL	HUSDSC54MBZY
Dimensions	870mm (H) x 595mm (W) x 595 (D)
Nett Capacity	154 litres
Temperature Range	0 to 10°C
Cooling Zones	1
Shelves	3
Refrigerant	R600a
Humidity Range	50% - 80% (IEC international standards)

FEATURES

- Matte Black Frame
- Digital Temperature Display
- Anti-Vibration Compressor Feet
- LED Internal Light
- Triple Glazed Glass Doors
- 3 Year Warranty

154L WINE CABINET

HUSDSC54MBZY

THE KEYS TO PRESERVING THE NATURAL TASTE OF WINE

TEMPERATURE

Although varying temperatures are used for serving, all wines should be stored between 12°C - 14°C. Storing your wine outside of these temperatures can spoil the natural taste.

HUMIDITY

Storing wine at lower than 50% humidity can lead to the cork drying out and shrinking. This can lead to air entering inside of the wine bottle leading to oxidation and odours.

LIGHTING

High amounts of light, particularly damaging UV rays can effect the natural colour and tannins within your wine. This can lead to damaging hydrogen sulphide compounds developing within the wine.

VIBRATIONS

Slight vibrations can accelerate the natural ageing process of wines and lead to a deterioration in flavour and an overall lack of quality.

AIRFLOW

A lack of airflow within a wine cabinet can lead to poor ventilation, stale air and sometimes mould. Active carbon filters help to eliminate odours that can develop within the wine cabinet.
